Who We Are

# About Us

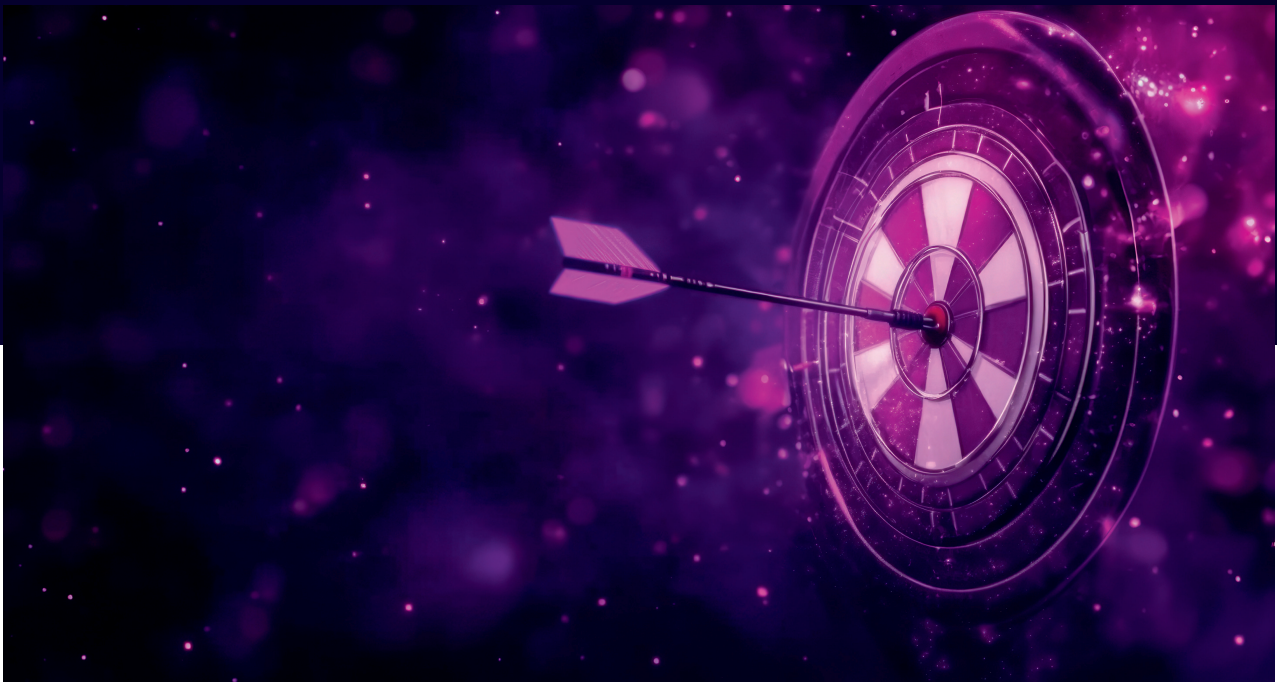

Healio Pharma Pvt. Ltd. is a science-first wellness and nutraceutical company built on one clear belief: people deserve solutions that truly work. Every formulation begins with research, not trends, and is designed around clinically aligned doses, evidence-based ingredients, and advanced delivery systems that support superior absorption, stability, and consistency.

Our approach is transparent and precise. We focus on outcomes that are real and measurable, supported by clear guidance, rigorous quality discipline, and a responsibility-led mindset where wellness is not a claim but a commitment. Across every product and every batch, Healio exists to translate trusted science into everyday healing that people can feel and rely on, staying true to our promise: Science that Heals!

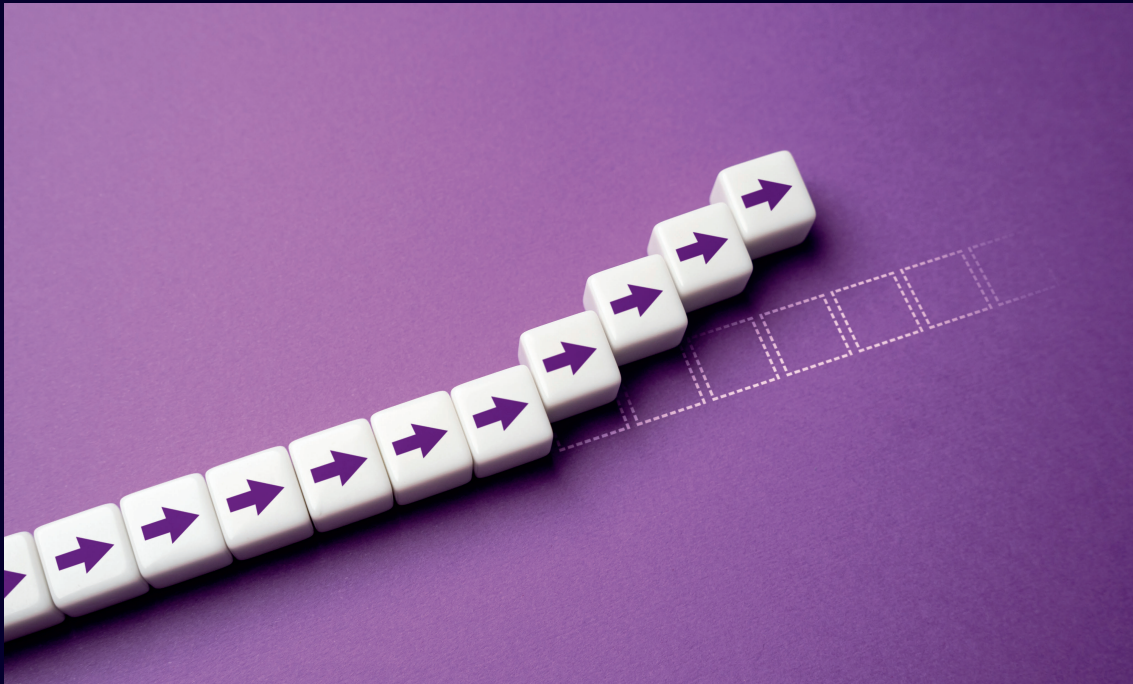

# Our Vision

“To become the world’s most trusted name in evidence-based healing. We envision a future where choosing better health is simple, outcomes are unmistakably clear, and every formulation we create becomes the quiet standard behind confident, healthier lives everywhere.”

# Our Mission

“We exist to turn trusted science into everyday healing. We do this by creating research-backed formulations with clinically proven doses, engineered for superior absorption, stability, and consistency, and delivered with transparent guidance and uncompromising quality. So that people experience real results they can feel, trust they can rely on, and wellness that truly heals from within, the promise behind Science that heals!”

Our Capabilities

# What Sets **Healio** Apart

## ✔ **Science-First Formulation Approach**

Our formulations are designed using evidence-based ingredients and clinically aligned doses, supported by advanced delivery systems that improve absorption, stability, and consistency. Every product is developed with a clear understanding of how it works in the body to support reliable and measurable wellness outcomes.

## ✔ **Manufacturing & Compliance Standards**

All Healio products are manufactured exclusively in Central FSSAI licensed, USFDA registered, and WHO-GMP certified facilities. This standard is non-negotiable and applies across every formulation and every batch, ensuring regulatory readiness, quality consistency, and global market compliance.

## ✔ **Purpose-Driven Product Categories**

Healio's portfolio spans key wellness needs including sleep and stress support, performance and vitality, muscle and mineral nutrition, pediatric essentials, antioxidants and longevity, beauty and collagen nutrition, and daily core supplements, all developed with a clear outcome focus.

## ✔ **Digital & E-Commerce Support**

Beyond products, Healio supports partners with science-aligned digital content, educational reels and posts, and e-commerce readiness including product listings and launch assets. This ensures responsible communication, faster adoption, and stronger brand consistency across digital platforms.

Our Founders

# Meet the Leadership

Healio's leadership brings together decades of academic excellence, pharmaceutical science, and responsible innovation.

## Dr. Chandrashekhar A. Doifode, PhD

Co-Founder, Director, & Principal Scientific Advisor

*Dr. Chandrashekhar A. Doifode brings over four decades of experience in pharmaceutical education, research, and academic leadership. A former Principal of Taywade College of Pharmacy, Nagpur, he has played a pivotal role in shaping pharmacy education, regulatory compliance, and research culture across institutions.*

*With extensive expertise in pharmaceutical chemistry, formulation development, nutraceutical and herbal product standardization, and academic governance, Dr. Doifode has served in key leadership roles including President of the Central India Pharmacy and Research Association and member of university Boards of Studies. His guidance anchors Healio's scientific rigor, ethical discipline, and research-driven approach to product development.*

## Dr. Kunal Banode, PhD

Co-Founder & Director

*Dr. Kunal Banode is a pharmaceutical scientist and entrepreneur with deep research experience in formulation science and advanced drug delivery systems. His academic and research work focuses on translating evidence-based pharmaceutical principles into practical, outcome-oriented wellness solutions.*

*As Founder and Director of Healio Pharma Pvt. Ltd., Dr. Banode leads the company's vision of building a science-first nutraceutical brand grounded in clinically aligned formulations, disciplined quality standards, and responsible communication. His leadership ensures that Healio's products are designed for real, measurable wellness outcomes while maintaining regulatory and scientific integrity.*

## Leadership Philosophy

*Together, the leadership combines academic depth, formulation science, and long-term vision, ensuring that Healio Pharma remains firmly rooted in evidence, responsibility, and the promise of Science that Heals!*

# Current **Product** Portfolio

## **Energy, Performance & Vitality**

Formulations designed to support physical energy, stamina, and daily performance through disciplined nutrient and botanical combinations.

## **Sleep, Stress & Neuro Support**

Products developed to support relaxation, sleep quality, and neurological balance, with emphasis on consistency and daily usability.

## **Muscle, Nerve & Mineral Support**

Targeted mineral and nutrient systems formulated to support muscle function, nerve signaling, and metabolic balance.

## **Pediatric & Daily Essentials**

Carefully designed daily-use formulations addressing foundational nutritional needs, including age-appropriate wellness support.

# Current Product Portfolio

Energy, Performance & Vitality

## Heallo PowerNOva™ Capsules

*Clinically dosed nitric oxide and performance formulation*

- **L-Citrulline – 800 mg**

Clinically evaluated nitric oxide precursor that supports improved blood flow and circulation by enhancing endogenous arginine availability.

- **L-Arginine – 300 mg**

Supports nitric oxide synthesis and vascular function, working synergistically with citrulline to promote circulation and performance outcomes.

- **Ginseng – 200 mg**

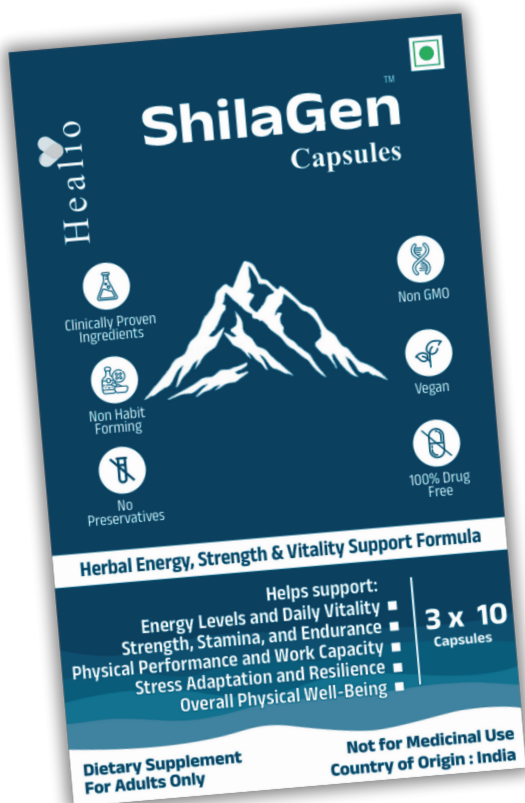

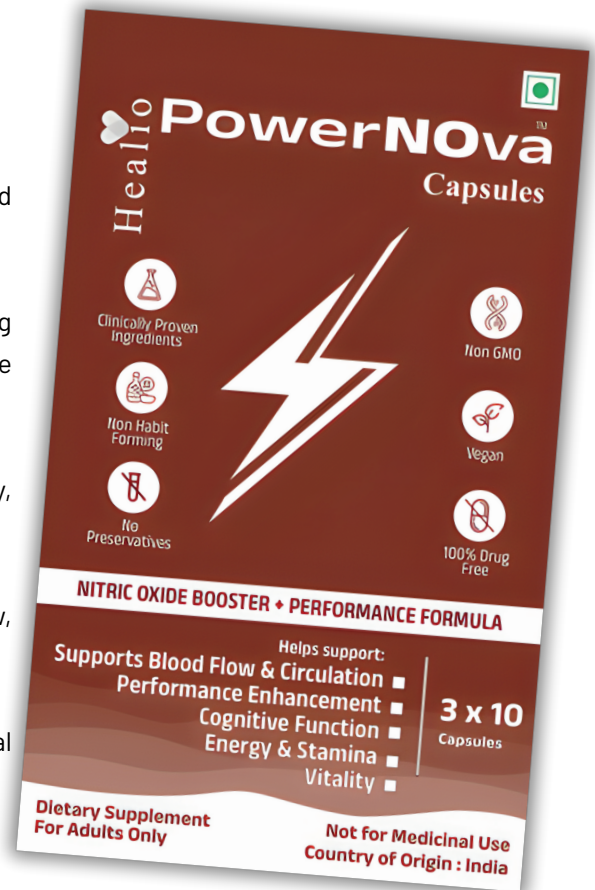

Clinically studied botanical known to support endurance capacity, physical stamina, and resistance to fatigue.

- **Ginkgo biloba – 150 mg**

Well-researched extract shown to support cerebral blood flow, microcirculation, and cognitive performance.

- **Butea Superba – 100 mg**

Traditionally used extract studied for supporting male vitality, physical performance, and endurance with consistent intake.

## Heallo ShilaGen™ Capsules

*Clinically dosed, research-aligned formulation*

- **Shilajit Resin – 400 mg**

Clinically aligned with studied intake levels shown to support energy, stamina, and fatigue resistance.

- **Ashwagandha KSM-66® – 600 mg**

Dose used in human studies reporting up to 44% reduction in stress levels over 60 days.

- **Safed Musli Extract (10%) – 150 mg**

Standardized extract formulated to support vitality, strength, and endurance with consistent use.

- **Ginger Extract (10%) – 25 mg**

Clinically relevant dose supporting digestion, antioxidant activity, and metabolic efficiency.

- **Black Pepper Extract (Piperine 95%) – 5 mg**

Clinically established bioavailability enhancer shown to improve botanical absorption by up to 30%.

# Current Product Portfolio

## Sleep, Muscle & Nerve Health Support

### Healio Dream SR™ Capsules

*Clinically designed sleep and relaxation formulation*

- **Melatonin (Immediate 2mg + Sustained Release 3mg) – Total 5 mg**

Dual-release melatonin supports faster sleep onset and sustained melatonin levels through the night, helping align with natural circadian rhythms.

- **Ashwagandha Extract (5% Withanolides) – 125 mg**

Clinically studied adaptogenic herb that supports stress regulation, relaxation, and improved sleep quality by promoting nervous system balance.

- **L-Theanine – 100 mg**

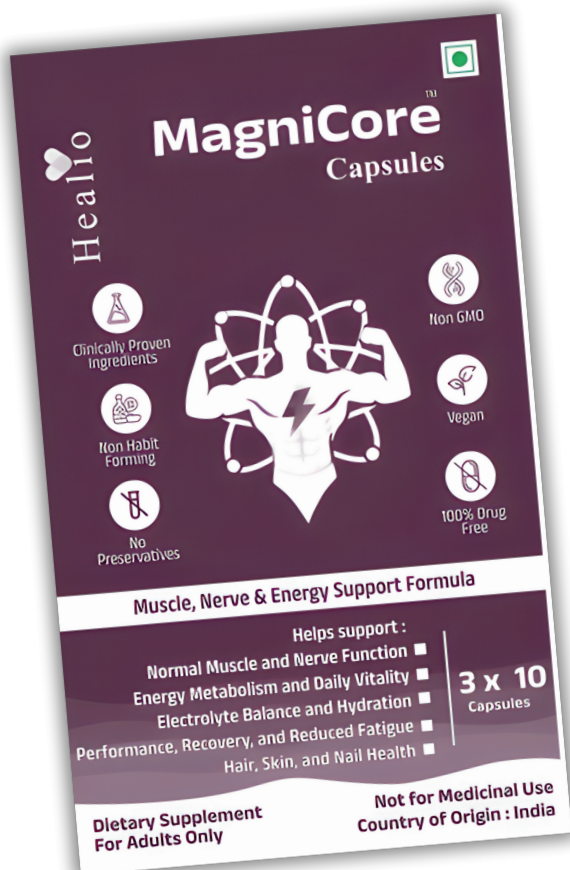

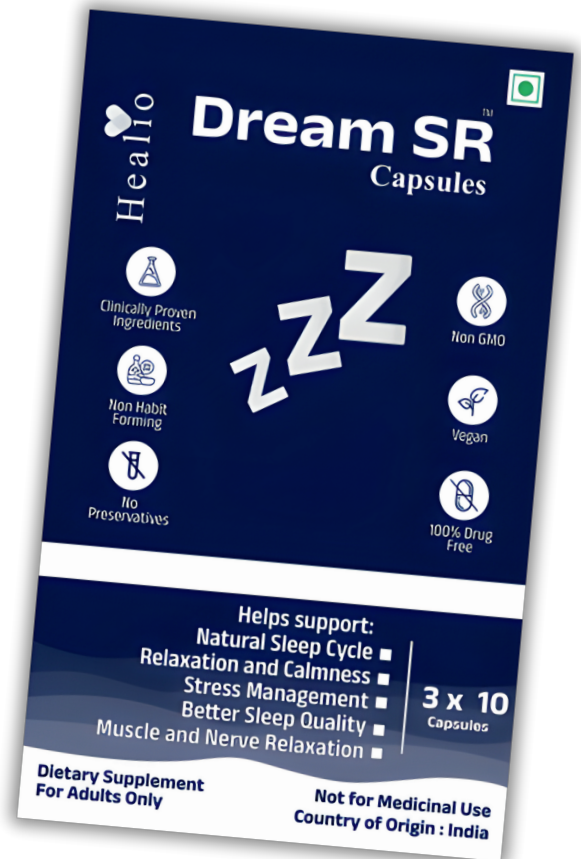

Naturally occurring amino acid known to promote calmness and relaxation without sedation, supporting smoother transition into sleep.

- **Magnesium (as Bisglycinate) – ~50 mg elemental**

Highly bioavailable form of magnesium that supports neuromuscular relaxation and calming neurotransmitter pathways.

- **Vitamin B6 (Pyridoxine HCl) – 1.3 mg**

Supports normal neurotransmitter synthesis and melatonin production pathways involved in healthy sleep-wake cycle regulation.

### Healio MagniCore™ Capsules

*Clinically designed magnesium and neuromuscular support formulation*

- **Liposomal Magnesium Triple Complex – 300 mg elemental mg**

Advanced liposomal delivery system designed to support optimal magnesium absorption, contributing to neuromuscular relaxation, nerve function, and muscle performance.

- **Taurine – 100 mg**

Conditionally essential amino acid known to support electrolyte balance, neuromuscular stability, and cellular hydration, working synergistically with magnesium for muscle and nerve health.

- **Silicon – 5 mg**

Trace mineral involved in connective tissue integrity, supporting bone strength and structural resilience.

- **Activated Vitamin B-Complex (B1, B2, B3, B5, B6, B7, B9, B12)**

Carefully selected B-vitamins in bioactive forms that support energy metabolism, nerve function, neurotransmitter balance, and fatigue reduction, complementing magnesium's role in neuromuscular and metabolic pathways.

# Current Product Portfolio

## Nutritional & Neurofunctional Support

### Healio D3 Drops

Healio D3 Drops use a water-soluble vitamin D3 format, designed to be gentle, palatable, and comfortable to consume for infants and children, avoiding the heavy or sticky feel of oil-based drops.

Vitamin D content is standardised per millilitre, allowing consistent intake without dependence on variable drop size, supporting ease of daily supplementation.

The liquid formulation allows smooth administration and easy mixing, helping caregivers maintain regular use as part of a child's daily nutrition routine.

### Healio Nervo B Tablets

- **Vitamin B1 (Thiamine HCl) – 100 mg**

Essential vitamin involved in nerve impulse transmission and carbohydrate metabolism, supporting efficient energy utilization and normal nervous system function.

- **Vitamin B6 (Pyridoxal-5-Phosphate) – 100 mg**

Bioactive form of vitamin B6 that plays a central role in neurotransmitter synthesis, amino acid metabolism, and nerve signal regulation, supporting sustained neurological function.

- **Vitamin B12 (Methylcobalamin + Adenosylcobalamin) – 1000 mcg**

Dual-active forms of vitamin B12 that support nerve integrity, myelin maintenance, and red blood cell formation, contributing to neurological health and mental alertness.

# Future Product Pipeline (Not Limited To)

## **Antioxidant & Cellular Health**

Formulations focused on cellular protection, metabolic balance, and foundational antioxidant support, developed with attention to bioavailability and long-term use.

## **Beauty, Skin & Collagen Nutrition**

Nutrition-led approaches to skin health, structural support, and connective tissue wellness, designed to complement overall systemic health.

## **Longevity & Advanced Wellness**

Next-generation wellness formulations exploring healthy aging, resilience, and sustained vitality through evidence-guided innovation.

## **Core Daily Nutrition**

Essential nutrient systems intended to support everyday nutritional adequacy across diverse age groups and lifestyles.

# Brand Enablement, Markets & Partnership

Healio supports its partners beyond product development by enabling clear, responsible, and science-aligned communication across digital and commercial platforms. Our brand enablement approach is designed to help partners educate, engage, and scale with consistency and credibility.

## 01 Digital & Educational Support

Healio provides structured digital content support including educational reels, posts, and science-led product communication assets, developed to align with regulatory discipline and brand integrity across platforms.

## 02 E-Commerce Readiness

We assist partners with e-commerce-ready product content, listings, and visual assets to ensure clarity, consistency, and faster go-to-market execution across online channels.

## 03 Markets & Expansion

Healio currently operates in the Indian market, with planned launches in the UAE and a strategic roadmap for expansion into additional global regions. All formulations and processes are developed with export readiness and regulatory alignment in mind.

## 04 Partner With Healio

We work closely with distributors, healthcare professionals, and strategic partners who share our commitment to evidence-based wellness, quality discipline, and long-term trust.

# International Operations & Global Business Management

Healio Pharma manages its international supply chain, distribution, and commercial operations through its **International Headquarters in Dubai**, operating under the name **Ghuzlanmed**. Ghuzlanmed functions as the global execution and market-facing arm of the Healio group, overseeing all international business activities.

We're headquartered in **Dubai, UAE**, and serve as the central hub for Healio Pharma's international distribution and commercial operations. Dubai's world-class logistics infrastructure and global connectivity help us serve clients across the **Middle East, MENA, and CIS regions**, ensuring timely deliveries, consistent product availability, and optimised inventory management.

Beyond distribution, Ghuzlanmed acts as a **complete market-entry and expansion partner** for pharmaceutical and nutraceutical manufacturers seeking to establish or scale their presence in the Middle East. The Ghuzlanmed team provides **end-to-end regulatory support, marketing enablement, storage, and distribution services**, allowing partners to enter the region with speed, confidence, and full compliance.

Backed by **over 30 years of combined industry experience**, Ghuzlanmed operates with ready-to-deploy infrastructure and deep regional market expertise. This integrated model enables partners to reduce entry barriers, shorten time-to-market, and focus on growth, while operational, regulatory, and supply chain complexities are managed centrally.

With a strong on-ground presence in the UAE, Ghuzlanmed ensures **enhanced customer engagement, proactive regulatory guidance, and flexible supply chain solutions**, making it a trusted gateway to Middle Eastern markets for Healio Pharma and its global partners.
